

Clip v_00HRwkvjtQ_c007 f493-591 · basketball · 2026-05-29

Automated court-metre analytics via a basketball court homography (team-agnostic).

PLAUSIBILITY-VALIDATED - court homography has NO ground-truth (cf. football's 0.2 m); geometry/physics-checked

Court calibration

in-bounds: 100%

MANUAL marking (human-clicked)

landmark recon: 0.2 m

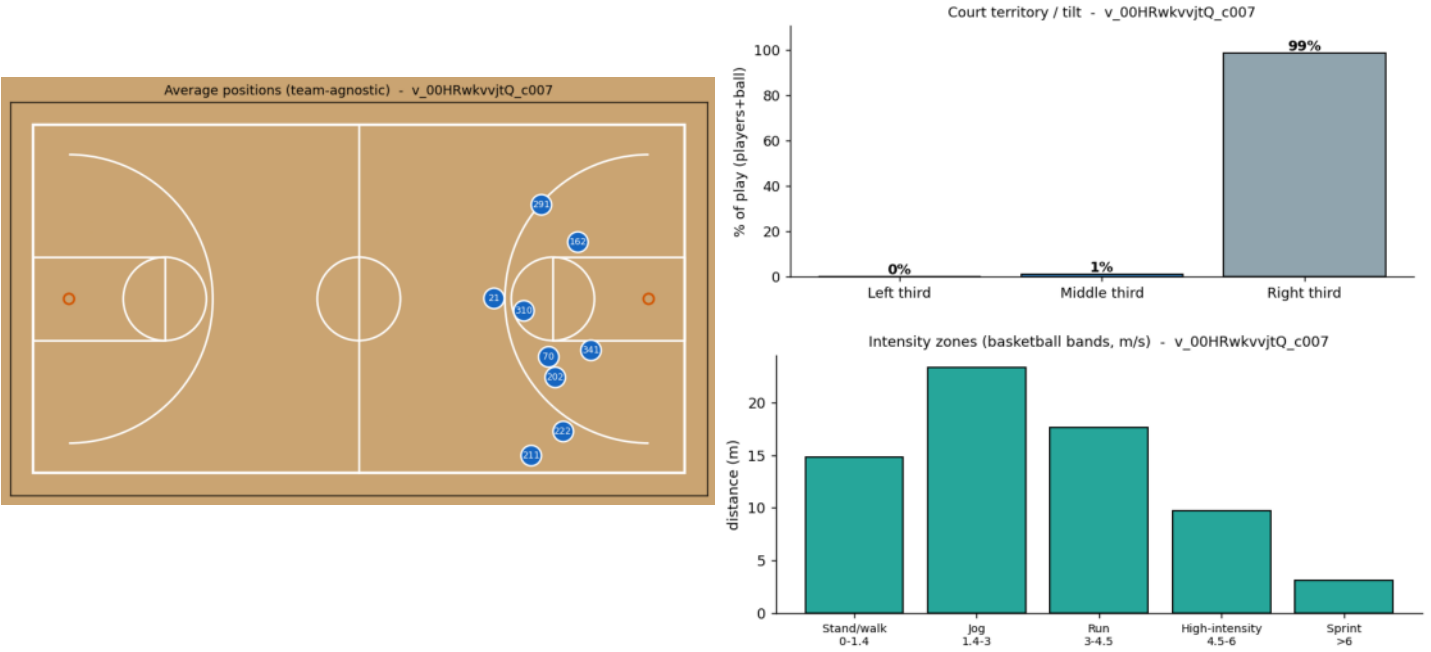

Total distance (all players)

68 m

in 4 s, 17 tracks

max player speed 9.0 m/s

DERIVED ANALYTICS - geometric summaries of the (plausibility-calibrated) court positions

Coming soon (team assignment needed)

Team-split heatmaps and possession % need basketball TEAM ASSIGNMENT (a future session); football has these from Day-11, basketball does not yet

Honest status

Plausibility-validated (no court-metre GT). SportsMOT broadcast pans, so this is a ~4s single-homography demo; a fixed deployment camera (mark
